

MINES AND MINING STOCKS = FINANCIAL AND COMMERCIAL

PRODUCTION OF ORE AND BULLION

Week's Record Has Been a Very Good One.

OUTLOOK FOR REST OF YEAR

UTAH-CALIFORNIA OPERATORS George Z. Edwards Given Great TO CONSOLIDATE MINES.

several months past.

Considerable ore comes into this market from outside states and is always included in the figures given from day to day and week to week. On the other hand, there is a large tonnage being sent out of Utah for treatment elsewhere, and it is thought that the one makes an even standoff for the other. At the present time a respectable ton. where, and it is thought that the one makes an even standoff for the other. At the present time a respectable tonnage of ore is coming from Alta and Big Cottonwood mines, and the year promises to show a substantial gain over the state's production during 1902. Before the close of the present month the Majestic company's smeller will undoubtedly be in operation, and, barring unforeseen accidents, it will add materially to the output of copper for the last two months of the year. The Tintic company's Yampa smeller will also be in commission before the year closes, but whether in time to make much of a showing will depend altogether on the company's Yampa will depend altogether on the year of Yampa will be year. The Tintic company's Yampa will be year of Yampa will be year of Yampa will be year of Yampa will be year. The Tintic company's Yampa will be year of Yampa will be year. The Tintic company's Yampa will be year. The Tintic company's Yampa will be year of Yampa will be year. The Tintic company's Yampa will be year. The Tintic will be year of Yampa will be year. The Tintic will be year of Yampa will be year. The Tintic will be year of Yampa will be year. The Tintic will be year of Yampa will be year. The Tintic will be year of Y but whether in time to make much of a showing will depend altogether on the company's ability to secure laborers and mechanics to hurry the completion of the works. Material is now coming along at a rapid rate and the principal buildings are well under way. The mine buildings are well under way. The mine is ready to supply any tonnage of ore desired and there will be nothing to der lively work when once the fires | Light Week's Business, With Prices

Dern Pleased With Conditions.

Dern Pleased With Conditions.

L. P. Larson of Fremont, Neb., who is a large shareholder in the Consolidated Mercur, returned from a trip to the company's properties Friday evening and yesterday left for home. He was very much at ease over the pleased with conditions as he found them and leaves feeling very much at ease over the future outlook for the proposition. The new slime-treating plant went into partial commission during his visit and it worked with perfect accuracy and ease. Fresident Dern. who returned from camp with Mr. Larson, was also very much pleased with the performances of the new plant. He declared that there was no doubt that it would do all that was claimed for it by the inventor of the process which it employs.

"Of course," said Mr. Dern, "it will take some little time to get the plant in full operation and learn just exactly what it will do in the matter of saving the values. That is to be expected of any process in the beginning of its career. Before the month is over, however. I have not the least fear but Mr. Moore will have the plant working to full capacity. We already know what the process will do in the way of recovering the values from the slimes and tailings. It has not been adopted blindly, by any means, but with new machinery of any description there is always something cropping up that suggests changes and readjustments, and these are the only features that may interfere with the complete operation of the plant during the first few days of its career. Mr. Moore is still at the works and he will not leave his post until every kink has been straightened out and he knows that perfection in operation has been attained."

In the meantime close to the maximum tomage of ore is going through the company's big mill and the usual savings are being effected. When the new slimetreating plant is down to its work 1.000 tons of crude and roasted ore will again be passing through the mill and the profits will be increased several hundreds of dellars per day by the gold recovered from the slime

SHEBA OFFICERS SURPRISED.

Rock Long Distance From Mammoth

Ledge Carries Gold Values.

L. G. Hardy of this city, who has the contract for running a tunnel on the Sheba company's Mammeth property in Star district, Humboldt county, Nev., sent in some rock by President Bartch the first of the week that interested parties on this end of the line might know the character of the ground in the face of the tunnel. Some of it was submitted to the assayer a day or two ago and the returns were somewhat in the nature of a revelation. They showed \$7.44 in gold and a trace of silver per ton. The tunnel was then in a distance of 185 feet, with 125 feet farther to go to reach the ledge for which it is being driven. The rock being passed through is a quartz, carrying some little pyrices of iron, but little did the officials of the company think it would carry values amounting to anything so far from the vein.

In mentioning it yesterday Secretary Child said it was illustrative of the highly mineralized character of the ground on which the property was located and, he thought, might be taken as an intimation of what might be expected when the ledge was finally tapped. Mr. Hardy's contract calls for the running of the tunnel-strail the value of the rock which he is pene-Ledge Carries Gold Values.

trating he may feel that he is entitled to pay for the entire job right away.

Seriously speaking, however, President Bartch has become so interested in the changes which are now taking place both in the old Sheba workings and the Mammoth territory, as well, that he is seriously contemplating another trin to the mines during the coming week. When he left camp the rich ore described in this department a day or two ago was coming in so strongly that he believed a large hody would be encountered before long and when it does he wants to be on the ground. As it is, several tons have been recently taken out and, as it runs more than 3,000 ounces to the ton, provision for taking care of it previous to Beicher 1 selected to open the ground of taking care of it previous to best of the selecter 1 selecter 1 selecter 1 selecter 2 to open the ground of taking care of it previous to be selecter 1 selecter 1 selecter 1 selecter 1 selecter 2 to open the ground as it runs more than 3,000 ounces to the ton, provision for taking care of it previous to 2 to the selecter 1 selecter 1 selecter 1 selecter 2 to open the ground as it is selecter 1 selecter 1 selecter 1 selecter 2 to open the ground as it is selecter 1 selecter 1 selecter 1 selecter 2 to open the ground as it is selecter 1 selecter 1 selecter 2 selecter 3 selecter 4 selecter 4 selecter 3 selecter 4 s vision for taking care of it previous shipment must be made.

POPULAR SUPERINTENDENT.

TO CONSOLIDATE MINES.

Ore and bullion settlements in the local market during the past week, as reported by McCornick & Co., amounted to \$513,500, a material increase over the previous week. Yesterday's settlements were rather light, owing to the short business day, and were as follows: Silver, lead, gold and copper ores, \$27,-200; base bullion, \$39,300.

From the independent copper smelters there was forwarded during the week a total of \$655,216 pounds of bullion, carrying copper, silver and gold as follows: Bingham Consolidated, 181,363; United States, 183,853, and the Utah Consolidated, 300,000 pounds. The American company's output of copper bullion varies but little from \$00,000 pounds a week, so, if that be added to the product of the individual company plants, the total would be \$65,216 pounds, figures which have been closely adhered to for several months past.

Considerable ore comes into this market from outside states and is always Send-off on Leaving Con, Mercur,

WOBBLY MARKET IN WALL STREET

Some Stocks Went Up and Others Scored Declines.

TONE SOMEWHAT UNSETTLED

IMPROVEMENT NOTED DURING THE WEEK.

New York, Oct. 3.-Today's market was narrow and dull and largely confined to professional operations. The movement was decidedly irregular, especially at the close, when some of the leading stocks ran up to the top level of the day, notably St. Paul and New York Central, while others ran off to the lowest, Erie and Missouri Pacito the lowest, Erie and Missouri Pacific being conspicuous. The tone was
somewhat unsettled throughout. London's influence caused the opening decline, and an effective rally was lost
on the appearance of the bank statement. The decrease in the loan item
was satisfactory, in view of the heavy
requirements of the Oct. I settlements
and the Steel conversion syndicate The 3c assessment on Black Bess became delinquent yesterday.

Another wreck is reported on the United States company's Bingham tramway.

Manager Sonnedecker of the Silver Bell will visit that Park City property today.

Receipts at the Taylor & Brunton sampler yesterday included six cars of the from Tintic and three from Bingham.

Samuel Newhouse came in from Denver yesterday afternoon. He will now devote some time to the affairs of his various mining enterprises here.

Don Maguire is making a round-up of and the Steel conversion syndicate needs, but the decrease in cash of \$1,-644,500 disappointed expectations. This Don Maguire is making a round-up of several of the mining camps for the purpose of having them properly represented at the St. Louis exposition next year.

Still a small disturbing factor on sentiment. Sterling exchange was easy, and discount rates declined in London with reports of large arrivals of gold. with reports of large arrivals of gold from South Africa. New York's probable caming requirements upon London fo gold thus promise to be facilitated. There were signs of continuance of arbitrary and the statements of the statement of the statem bitrage operations by the underwriting syndicate by buying United States Steel preferred and selling the bonds.

Review of the Week.

There has been a considerable improvement in sentiment in Wall street during the week as a result of various during the week as a result of various causes, but principally the lightening of the pressure of unexplained liquidation which had been going on for a considerable time and followed wivi an urgency and a disregard of prices which stamped it unmistakably as necessitous. Selling of this character was still in evidence on Monday and made the closing of the market on that day weak to the point of demoralization. The next day showed a sudden and unexplained reversal in the course of prices. It became very evident in the course of the day that the strongest banks and capitalists were buying stsks at various points in the list for the purpose of supporting prices and soothing the fears which were threatening to run into panic. Formal denials were made that any agreement had been entered into to this end, but it is certain that there were meetings and discussions Monday night between Suffering pure special and there will be Boltomy street and the street a

Sheep—None.

South Omaha. Oct 3.—Cattle—Receipts, 100. Market. nominally steady. Native steers, 3.75@6.00; cows and helfers, 3.00@ 4.00; western steers, 3.00@4.50; transfer through the treasury to New Yok had a timely offset upon the money market. The lateness of the corn and transfer through the treasury to New Yok had a timely offset upon the money market. The lateness of the corn and transfer through the treasury to New Yok had a timely offset upon the money market. The lateness of the corn and transfer through the treasury to New Yok had a timely offset upon the money market as a result of government of 5 per cents and deposit of internal revenue receipts in the banks. The arrival of over \$1,000,000 in gold at San Francisco from Australia and his transfer through the treasury to New Yok had a timely offset upon the money market as a result of government of per cents and deposit of internal revenue receipts in the banks. The arrival of over \$1,000,000 in gold at San Francisco from Australia and his transfer through the treasury to New Yok had a timely offset upon the money of spring wheat crops still deters the movement of currency to the west. Some hope is induged in that the deposit of government funds with west-remained to the money of the western demand. The completion of arrangements for the extension of the United States Steel stock conversion syndicate seems to have relieved the market from some immediate pressure. London also has had the benefit of the turn of the money market as a result of government of 5 per cents and deposit of in-ternal revenue receipts in the banks. The lateness of the corn and transfer through the treasury to New Yok had a timely offset upon the money of the mon 3.15; cows, 2.0063,15; feeders and stockers, 3.0063,55; bulls, 1.506250.
Hogs—Receipts, 200 Market, higher, Light packers, 6.0068,05; mixed and heavy, 5.9566,00.
Sheep—Receipts, 1,400. Market, steady, Good to fat muttons, 3.0064,00; lambs, 4.0064,50.

Coffee and Sugar.

New York, Oct. 3.—Coffee—Spot Rio, Firm; No. 7 invoice, 5½; mild, steady; Cordova, 7611. The market for coffee functional content of the month, and this has relieved the market from some immediate pressure, London also has had the benefit of the turn of the month, and this has relieved the market form some immediate pressure, London also has had the benefit of the turn of the month, and this has relieved the market from some immediate pressure, London also has had the benefit of the turn of the month, and this has relieved the market from some immediate pressure, London also has had the benefit of the turn of the month, and this has relieved the market from some immediate pressure, London also has had the benefit of the turn of the month, and this has relieved the some function of the month, and this has relieved the some function of the month, and this has relieved the some function of the month, and this has relieved the some function of the month, and this has relieved the some function of the month, and this has relieved the market from some immediate pressure, London also has had the benefit of the turn of the month, and this has relieved the market from some immediate pressure, London also has had the benefit of the turn of the month, and this has relieved the some function of the month, and this has relieved the some function of the month, and this has relieved the some function of the month, and this has relieved the some function of the month, and this has relieved the market from some immediate pressure, London also has had the benefit of the month, and this has relieved the some function of the month, and this has relieved the some function of the month and the some function of the month and the some function of the month and the some

The Bank Statement.

New York, Oct. 3.—The statement of averages of the clearing house banks of this city for the week shows:
Loans, \$912,903,00; decrease, \$4,144,600.
Deposits, \$97,234,400; decrease, \$4,130,800.
Circulation, \$45,674,700; decrease, \$11,800.
Legal tenders, \$70,762,700; decrease, \$1,500.
Specie, \$167,478,400; decrease, \$28,400.

Si.100. Specie. \$167.478,400: decrease, \$608,400. Reserve, \$238,241.100; decrease, \$1.664,500. Reserve required, \$224,303,600: decrease, 032,700.

Specie. \$167.478.400: decrease. \$608.400. Reserve. \$238.241.100; decrease. \$1.661.500. Reserve required. \$224.303.600; decrease. \$1.002.700. Surplus. \$13.937.500; decrease. \$831.800. Ex. U. S. deposits. \$22.128.700; decrease. \$1.162.300.

The Financier says: The striking feature of the official statement of the New York associated banks last week was the decrease of \$1.694.500 in cash instead of and increase of \$1.694.500 in cash instead of and increase of \$1.420.600 as was estimated from the traceable movements of money during the week. The loans decreased \$4.144.600 during the week, but this was expected as the result of the somewhat violent Hquidation in the stock market this week, and also of the operations incident to the October settlements. The deposits were decreased \$4.130.800, whereas the reduction in loans and the loss of cash together called for a decrease of \$5.089.100, therefore the statement does not balance by \$1.578.300. It may be noted that the balance was probably somewhat deranged, as was expected, by the changes incident to the merger of the Western National bank of Commerce, which will become effective on Monday of next week, the increased \$25.000.000 of capital and \$15.000.000 of surplus of the Bank of Commerce will be reported in the statement to be issued on Saturday, Oct. 10, while the Western National bank of the United States with the required reserve was reduced \$1.622.700 through the decrease in deposits, which sum, deducted from the foss of cash. leaves \$621.800 as the decrease in surplus reserve, making this item \$13.-937.500. Computed upon the basis of deposits, which sum, deducted from the foss of cash. leaves \$621.800 as the decrease in surplus reserve, making this item \$13.-937.500. Computed upon the basis of deposits, which sum deducted from the foss of cash. leaves \$621.800 as the decrease in surplus reserve, making this item \$13.-937.500. Computed upon the basis of deposits week to the changes resulting from the October settlements. Circulation showed the comparatively uni

GRAIN AND PROVISIONS.

GRAIN AND PROVISIONS.

Chicago, Oct. 2.—With the opening sales wheat prices started in a downward direction and the decline continued throughout the entire session. The opening was barely steady on rather indifferent cables, December being unchanged to a shade higher at 784,678½ to 78½. Local houses with St. Lowis connection had selling orders from the start, and added to this was the break of nearly 2 cents in the December price at St. Louis. One or two of the big houses here were on the celling side early and this started a general liquidation and values declined rapidly. One of the chief factors in creating the bearish sentiment was the large primary receipts, those at St. Louis showing the greatest gain. There was little demand at any time in the session and the volume of trading was small. Closing prices were at about the bottom figures final figures on December being 161½ lower at 77,4677%. Clearances of wheat and flour were equal to 227,290 buscls. Primary receipts were 1.141,700 bushels against 1,115,700 bushels a year ago. Minneapolis and Duluth redoried receipts of the typic cars, which, with local receipts of the typic cars, which, with local receipts of the typic cars, against 517 last week and 361 a year ago.

Black Hen Was On.

Black Hen Was On.

Black Hen Was On.

Black Hen Was On.

(Twentieth Century Farmer.)

This is how the contributor to one of the magazines tells of the way in which a little girl revealed the outlook for trade to the country storekeeper:

"From one of the smaller cottages at the end of the street came a barefooted child in a colorless calico dress and state to the country storekeeper:

"From one of the smaller cottages at the end of the street came a barefooted child in a colorless calico dress and state states. With the important air of a heavy buyer she entered the village store and handed across the country hork closed at a loss of 7½ cents at 12.45; Jangary lard was off 6½ cents at 6.87%, and ribs were down 2½.65 cents at 6.87%. The leading futures ranged as follows:

Wheat—No. 2:

"Well, Emmy, what does your mawant today?"

"Please, sir, ma wants an egg's worth of molasses,' and she carefully

"'Please, sir, ma wants an egg's worth of molasses,' and she carefully placed a large white egg on the coun-

Close. Ask your grocer for Vienna Model bread. "It's the best."

NOTICE OF ASSESSMENT.

Notice of Special City Tax.

TO WHOM IT MAY CONCERN.—
Notice is hereby given that a special tax for the purpose of paving and curbing First street between State and A streets, in paving district No. 17, hay been levied and confirmed by ordinance of the city council, dated Sept. 21, 1903.

Said tax is levied upon the following real property in Salt Lake City to-wit: All of lots 7, 9, 9, 11, 2 and 13, block 1, and all of lots 1 to 5, inclusive, block 2, plat "1;" all of lots 3 and 4, block 14, and all of lots 1 and 2, block 15, plat "D;" Salt Lake City survey, to a depth of twenty-five feet back from said street, is payable in four equal installments and becomes delinquent as follows: Said first installment on March 39, 1901; said third installment on March 39, 1904; said third installment on June 39, 1904, and the said fourth installment on Sept. 30, 1904.

Each of said installments, except the first, shall draw interest at the rate of 7 per cent per annum from the time of the levy as aforesaid, and if any or either of said installments shall be unpaid when they become delinquent, interest thereon shall be at the rate of 10 per cent per annum until such delinquent installments are fully paid.

All special taxes are payable at my office, room 102, city hall. Sait Lake City.
